

Noimot Abiodun Alabi

Experienced frontend engineer with a focus on building engaging & accessible digital experiences

Relevant Experience

Frontend Engineer · [RESE Advanced Technologies Limited](#) Jan 2022 — Present

- Built the RESE Africa landing page (rese.africa).
- Collaborated with frontend developers to create an admin dashboard including the main dashboard, transaction page, storefront configuration settings, property details page, and offers page.

Technologies: Next.js, React, TypeScript, Sass, Redux, Jira, TailwindCSS

Frontend Engineer · [Faramove Technology Limited](#) Feb 2023 — Nov 2025

- Collaborated across four products — Roppi, Kary, Box, and Flowly — building and improving admin and merchant dashboards on multi-tenant platforms.
- Delivered features spanning store management, orders, products, logistics, wallets, campaigns, and user management.
- Implemented and improved profile settings, transaction limits, promotions, and employee management modules.

Technologies: Vite, React, TypeScript, TailwindCSS, Jira

Frontend Engineer · [Solv](#) April 2025 — Sept 2025

Contributed to the development of admin and workers dashboards for a platform connecting workers with paid gigs in the entertainment industry.

Technologies: React, TypeScript, TailwindCSS

Frontend Engineer · [Errandlr](#) Aug 2021 — Jun 2022

- Created the commerce pick-up location page and the business profile page.
- Created the e-commerce page serving as the dispatcher's landing page.
- Worked on the tracking ID page and affiliate onboarding screen.
- Resolved multiple UI bugs.

Technologies: React, TypeScript, React Query, Asana, TailwindCSS

Software Developer (Intern) · [Stutern](#) Oct 2020 — Jun 2021

- Collaborated with UI/UX Designers on a Staff Management Application.
- Built a responsive web app helping users locate the best restaurants in Nigeria.

Technologies: React, JavaScript, HTML, CSS, Node.js, Heroku, GitHub, Redux
